ABOUT M SIX LABS

We are a cannabinoid company that takes the Industrial Hemp Plant and converts it into any one of several hundred products. We can process your hemp into crudes, oils, or distillates. We can turn your hemp into retail ready products. We can grind your hemp plants into smokable ready particulates. From industrial hemp plant to retail ready products and anything in between, M Six Labs can help you get what you want out of your hemp plant.

M Six Labs, Inc. was started in 2019 out of an industry need for easy fulfillment of authentic high quality industrial hemp products. We have the ability to make small, medium or large custom batches and or formulas for your private / white label needs. We can fulfill your orders and ship your product from our facility. We can help you design and build your retail brand. If you can dream it, we can help you make it a reality.

M Six Labs, Inc. can help you with your raw material and turn it into crude, distillate or a finished product so that you can then sell it to a processor, manufacturer or retail establishment.

We use DEA Accredited and third party certified labs for all our testing needs.

VEGAN CHEWS

M Six Labs currently makes CBD, Delta 8, THC Free, and Less Than 0.3% THC vegan chews. Our standard strengths are 10mg and 25mg for CBD, Delta 8, and THC Free. We can formulate and manufacture them in any strength from 5mg to 50mg. Minimum quantity orders will apply to nonstandard strengths. Our Less Than 0.3% THC is only available in a 5mg strength.

Standard container sizes are 10ct, 20ct, 50ct and bulk of 450ct. We can make custom size counts for your specific needs. Minimum quantity orders will apply to nonstandard container counts.

If you have a bag or container that you want to use, we can also package our chews in your containers. Minimum quantity orders will apply to nonstandard container counts.
